

Omineca Guide and Outfitters

To protect our guests and crew members and slow the spread of Covid-19, Omineca Guide and Outfitters is adopting accepted public health guidelines. We ask that while in camp, all guests and crew members please follow these guidelines.

How to Protect Yourself & Others Against COVID-19

Keep at least 6 feet between yourself and others if you must be in public.

If you cannot physically distance, please wear a cloth face covering over your mouth and nose when around others.

Wash your hands often with soap and water for at least 20 seconds. If soap and water are not readily available, use a hand sanitizer.

Clean and disinfect surfaces frequently.

Monitor Your Health Daily

Be alert for symptoms. Watch for fever, cough, shortness of breath, or other symptoms of COVID-19
